A specialist is any physician other than family practitioner, internist, OB/GYN or pediatrician. *Illustrates benefits when in-network providers are used. For some plans non-network benefits are also available; there is no coverage for non-network benefits under the ActiveCare Select or ActiveCare Select Whole Health Plan; see Enrollment Guide for more information. Non-contracting providers may bill for amounts exceeding the allowable amount for covered services. Participants will be responsible for this balance bill amount, which may be considerable. **If the patient obtains a brand-name drug when a generic equivalent is available, the patient will be responsible for the generic copayment plus the cost difference between the brand-name drug and the generic drug.
